If you cut class yo your quiz grades will be low

Wake up, sit up, c'mon hold your heads up

If you like Pharm then you'll come to no harm

Receptors, channels, pharmacokinetics

Doses, agonists, pharmacodynamics

Read it, learn it, lots of drugs now

We got more drugs than there's room in your brain for

Listen class, cause we got the lists of the drugs you must know for
the Boards and the quiz

We're here to teach Pharm, We're here to teach Pharm, so go to
Weill Med to learn Pharm

Pharm, Pharm.....

Here are some drugs so learn what they do

Bind to receptors, change cell milieu

Activate rho and ras and raf too

Activate kinases, not just a few

Drugs for cancer, hypertension too

Drugs for acne, depression and the flu.

Drugs for pain, diabetes and arthritis,

Drugs for AIDS but...too few

Messengers are the name of the game

Side Effects, well they're a big pain

Elk and abl ras vav rap and myc

P53,p53,p53 and Rb

You're the cream of the crop

And we won't stop

Until you know your drugs and finish on top

Start with ampicillin and acetaminophen

End with Vioxx, and valium.

Then Viagra and Zoloft too

Vincristine, verapamil to name just a few

Now here's the man who leads the way

So listen to what he has to say..

Sung by TONY GOTTO (A.K.A. PHATT LIPID DADDY):

My name is Lil Daddy I'm the Dean of the School

And when I speak, my word is rule

I came from Texas to lead this school

you better study hard or you'll look like a fool.

Learn these drugs and study hard you see

And soon you'll be an MD like me...
